

## Dufry Does Mother's Day

The Dufry shops, known for fine scents and cosmetics have been doing a brisk business this past week, as many consider a special scent is the perfect gift for their favorite mom. Dufry also wished to give a gift to all the mothers in Aruba for their special day, but they did it just a bit early. Friday was the day when anyone and everyone could enjoy a free makeover from any of four fine lines of cosmetics that are guaranteed to give a fresh look to a tired, overworked mom. Rafael, Angelica, Romy and Joanne not only created a new look, but they even offered a relaxing massage where needed!

Dufry's beauty experts were willing and able to demonstrate the latest make-up fashions and skin care products from Lancome, Clarins, Estee Lauder and Clinique all day at either their shop located at the main street or in the Royal Plaza Mall. An Estee Lauder makeover introduced a new line of cheek, lip color, and eye shadow with some jazzy opalescent tones that would perk up anyone's look!

Makeovers were not only reserved for ladies that could make it to their shops, as the beauty experts took their skills and products to the San Jose Home for the Elderly on Thursday morning to provide special treatment and attention for the residents. "We at Dufry's commemorate all mothers with this beauty day. A mother is a fountain of guidance, love, respect, and inspiration," commented the industrious staff of Dufry as they made every lady at the home feel super special.
